The assumption that men are condemned to having only one orgasm – while women can have multiple – is, simply put, incorrect. In fact, the practice of non-ejaculatory orgasms in men is long established and well-documented in India, China, and many other non-Western cultures. But why would any man want such a thing? Besides having multiple orgasms that span several minutes, you mean? You have to admit, that's a good enough reason in itself. According to a number of ancient traditions, semen is a powerful substance that's part matter, part spirit, and incredibly magical. The more of this substance you lose, the more your health, your mind, and your spirit suffers. While orgasms empower a man, the loss of sperm causes him to weaken. This book will teach you exactly how to have multiple orgasms while maintaining the power of your sperm. If you're ready to experience this for yourself, let's get started!
