The figure of the feminine side of Christ is widely present in art and in feminist theology, but the risen Christa has not so far been explored. In this ground-breaking book, Nicola Slee, writing in a mixture of reflection, poetry and images, revisits many of the central narratives of the gospels and key Christological themes, re-imagining them through the eyes and voice of the Christa, offering original and creative perspectives as a resource for theology and spirituality. This book is in quest of a risen Christa who invites women and men to leave behind a clinging, dependent relationship with God and to discover a wider, freer Christ.
