Climate Policy: International Perspectives on Greenhouse Gases

Climate change threatens our planet's future. Since it's too late to prevent climate change, we must find ways to prepare for it, while doing all we can to slow down the processes that are causing it. The editor of this compendium, an experienced and respected scientist in the field, has collected research vital to the challenges we are facing. The book offers a multi-perspective look at ways to reduce greenhouse gases and find fossil fuel alternatives from a truly international roster of researchers and scientists.
