Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun

Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun

The book contains 29 sets of tables, some to as high as 20 places: mathematical constants; physical constants and conversion factors (6 tables); exponential integral and related functions (7); error function and Fresnel integrals (12); Bessel functions of integer (12) and fractional (13) order; integrals of Bessel functions (2); Struve and related functions (2); confluent hypergeometric functions (2); Coulomb wave functions (2); hypergeometric functions; Jacobian elliptic and theta functions (2); elliptic integrals {9}; Weierstrass elliptic and related functions; parabolic cylinder functions {3}; Mathieu functions (2); spheroidal wave functions (5); orthogonal polynomials (13); combinatorial analysis (9); numerical interpolation, differentiation and integration (11); probability functions (11); scales of notation {6}; miscellaneous functions {9}; Laplace transforms (2); and others. Each of these sections is prefaced by a list of related formulas and graphs: differential equations, series expansions, special functions, and other basic relations. These constitute an unusually valuable reference work in themselves. The prefatory material also includes an explanation of the numerical methods involved in using the tables that follow and a bibliography. Numerical examples illustrate the use of each table and explain the computation of function values which lie outside its range, while the editors' introduction describes higher-order interpolation procedures. Well over 100 figures illustrate the text.

From reader reviews:

Bethel Stockton:

Do you have favorite book? Should you have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each publication has different aim as well as goal; it means that publication has different type. Some people truly feel enjoy to spend their a chance to read a book. They can be reading whatever they consider because their hobby will be reading a book. What about the person who don't like reading a book? Sometime, particular person feel need book if they found difficult problem or perhaps exercise. Well, probably you will need this Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun.

Richard Davy:

The book Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun make you feel enjoy for your spare time. You may use to make your capable considerably more increase. Book can for being your best friend when you getting stress or having big problem using your subject. If you can make studying a book Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun to become your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like wide open and read a reserve Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other individuals. So , how do you think about this book?

Whitney Mallard:

A lot of people always spent their own free time to vacation or even go to the outside with them family or their friend. Do you realize? Many a lot of people spent they will free time just watching TV, or even playing video games all day long. In order to try to find a new activity that's look different you can read any book. It is really fun for you personally. If you enjoy the book which you read you can spent all day long to reading a guide. The book Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun it is quite good to read. There are a lot of individuals who recommended this book. These people were enjoying reading this book. Should you did not have enough space to deliver this book you can buy the e-book. You can m0ore quickly to read this book from a smart phone. The price is not to cover but this book offers high quality.

Mark Klein:

Publication is one of source of understanding. We can add our expertise from it. Not only for students but additionally native or citizen have to have book to know the change information of year to help year. As we know those textbooks have many advantages. Beside we all add our knowledge, can also bring us to around the world. By book Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun we can have more advantage. Don't you to definitely be creative people? To be creative person must want to read a book. Only choose the best book that appropriate with your aim. Don't always be doubt to change your life with that book Handbook of Mathematical Functions: with Formulas, Graphs, and Mathematical Tables (Dover Books on Mathematics) [Paperback] [1965] (Author) Milton Abramowitz, Irene A. Stegun. You can more appealing than now.
