Diary Methods is a key method used by social and personality psychologists in their research. This volume begins with a rationale for Diary Methods, especially as applied to these fields, and then proceeds in a non-technical, very accessible fashion to elucidate on how the method can and should be applied in research. The author, John B. Nezlek, is a known protagonist of the diary method in his own scholarly work and has written this title in an invitational way for the beginning user to this method.
