This is the first comprehensive reference source for the practice of paediatric physiotherapy. The editor, a preeminent physiotherapy educator, researcher and paediatric specialist, has worked with outstanding clinicians and researchers to create a thoroughly practical, state-of-the-art guide. The book first provides a solid groundwork in foundation issues including motor development, control and learning: development of the musculoskeletal system and gait: physical fitness and clinical decision-making. It also updates the reader on the latest research and theories of paediatric physiotherapy practice. Subsequent chapters focus on the management of problems in the orthopaedic, neurologic and cardiopulmonary systems. The final section describes paediatric physiotherapy in special settings including schools, burns units and neonatal special care units.
