Study Skill - 4 Books in 1! The complete study guide that will prepare you for maximum success in school and in life!

Get this book now for \$4.95 and save big! (\$11.97 if you were to buy these books separately)

What are the key factors in determining your academic success?

Whether you are at the high school or university level I believe there are four. They are:

- Note Taking - Taking good notes is the key to organizing and learning the required information. I'm always amazed at how many university students can't take good notes.
- Speed Reading - There are different techniques that can be used to increase your reading speed. Obviously, the faster you read (with comprehension!) the more you can learn in less time.
- Memory - No matter what subject you are trying to master you have to commit the information you've learned to memory. There are many memory techniques you can use to make this easier which I cover here.
- Test Taking - Once you have learned the material you need to prove it to the teacher, usually by taking a test. How you approach taking a test can be just as important as what you've learned if you want the best possible result.

As I consider these subjects to be the most important I have written short and practical guides on each of them. This book is a compilation of those guides that you can have at a greatly reduced price. Our academic lives are often a great predictor of our future success. What's more these skills, once learned, can be applied to many other areas of your life once you are out of school.

If you want to put yourself onto the fast lane on the road to success get this book and start learning today!
