Global Warming - Big Book (Climate Change) Erika Gombatz

What is causing Global Warming? What are the effects? What can we do to stop or reduce Global Warming? We take a critical look from a scientific perspective that will help students separate fact from fiction in popular accounts in order to make informed decisions about products and lifestyle choices that affect the Earth system. We also look at rising sea levels and altered patterns of weather and agriculture which are cited as direct consequences of Global Warming. Finally we look at creative ways to reduce human consumption and output, all in an effort to help clean up our planet. Our ready-to-use resource is written using simplified language and vocabulary which are presented in a way that is easier for students to understand. Comprised of reading passages, student activities, color mini posters, Crossword, Word Search and Comprehension Quiz.

Audrey Mack:

As a university student exactly feel bored to reading. If their teacher questioned them to go to the library or make summary for some book, they are complained. Just small students that has reading's internal or real their hobby. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Global Warming - Big Book (Climate Change) can make you experience more interested to read.
