Public Forces and Private Politics in American Big Business (Business and Public Policy)

Professor Timothy Werner

Public Forces and Private Politics in American Big Business (Business and Public Policy) Professor Timothy Werner

What are the political motivations behind firms' decisions to adopt policies that self-regulate their behavior in a manner that is beyond compliance with state, federal and local law? *Public Forces and Private Politics in American Big Business* advances a new understanding of the firm as a political actor that expands beyond the limited conceptualizations offered by economists and organization theorists. Timothy Werner develops a general theory of private politics that is tested using three case studies: the environment, gay rights and executive compensation. Using the conclusions of these case studies and an analysis of interviews with executives at 'Fortune 500' firms, Werner finds that politics can contribute significantly to our understanding of corporate decision-making on private policies and corporate social responsibility in the United States.
