During the last 10-15 years biology encountered a transition from hypothesis-driven to data-driven research as exemplified by a vast amount of data deposited on daily basis into various types databases. This transition has been accompanied by development of revolutionary technologies catalyzing emergence of new fields such as comparative and functional genomics, bioinformatics, and systems and synthetic biology. The aim of this textbook is to provide a basic background in these interdisciplinary areas and prepare students for the challenges they will face in their upcoming careers.

To help you see the representation of the world with this book.

Earl Hess:

Reading can be called an imagination hangout, why? Because when you find yourself reading a book, particularly a book entitled Genomika (Slovak Edition), your thoughts will drift away through every dimension, wandering in each aspect that maybe unfamiliar for but surely will become your mind friends. Imaging every word written in an e-book then becomes one contact form, conclusion and explanation in which maybe you never get before. The Genomika (Slovak Edition) gives you one more experience more than blown away your brain but also giving you useful info for your better life on this era. So now let us teach you the relaxing pattern at this point is your body and mind is going to be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

Lou Marshall:

Do you really one of the book lovers? If yes, do you ever feel doubt while you are in the book store? Try and pick one book that you never know the inside because don't judge a book by its cover may not work is a difficult job because you are scared that the inside maybe not while fantastic as in the outside seem like. Maybe your answer is usually Genomika (Slovak Edition) why because the fantastic cover that makes you consider in regards to the content will not disappoint you. The inside or content is definitely fantastic as the outside or perhaps cover. Your reading 6th sense will directly assist you to pick up this book.

Nicolas Jones:

As a university student, exactly feel bored in order to reading. If their teacher questioned them to go to the library in order to make a summary for some book, they are complained. Just small students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So, this Genomika (Slovak Edition) can make you feel more interested to read.
