The Hammer Script: Comics 1-12 Robert Letourneau

This is a time of fear and terror. The United States and China have become the super powers economically as well as militarily and struggle every day for dominance. Instead of the race for nuclear capability it's the procuring and stock piling of para humans. The Hammer is a government sanctioned group of those with the "extended gene", more commonly known as para humans. As countries race to secure these para humans the price for a powerful ally is great. This has led to many para humans for hire, the more powerful ones by their own choosing. They call themselves mercenaries and bounty hunters, banding together in factions to secure a defense should a government attempt to forcefully employ one of them. Still, for others, lines are being drawn and sides are chosen for the coming of a nightmare like none this world has ever witnessed. This is the world we live in. (This is a comic book script, we are still looking for an artist to make this vision complete.)
