The EcoEdge: Urgent Design Challenges in Building Sustainable Cities

The EcoEdge: Urgent Design Challenges in Building Sustainable Cities

Presenting diverse case studies of contemporary sustainable urban practice from Europe, Africa, India, South America, the USA and Australia, this book offers the reader a fantastic wealth of practical material from a range of internationally renowned authors.

Each practical case study has addressed issues and then offered solutions to implement sustainable cities across a range of urban scales and cultures. Urgent design challenges explored include population density, recreating infrastructure that supports carbon neutral or low carbon (emission) intensive urban activities, and retrofitting for sustainability.

Highly illustrated, thematically focused and with superb global coverage, this book presents a multi-voiced and yet highly cohesive reference for anyone interested in green issues in urban design and architecture.
