Bring a mighty dinosaur to life with *Make Your Own Stegosaurus*. Budding paleontologists will learn about this fascinating herbivore and create their own Stegosaurus model. Based on a real Stegosaurus skeleton, building this creature is easy with clear, step-by-step instructions and photographs. The model is comprised out of approximately 100 sturdy photographic "bones" that slot together without the need for glue. During its construction, readers will learn about different aspects of the dinosaur from the accompanying book. When finished, the Stegosaurus is approximately 13" tall by 23" long. Created in conjunction with the Smithsonian Institution, *Make Your Own Stegosaurus* is a fun, learning adventure for anyone who wants a hands-on experience with dinosaurs.
