The Philosopher's Stone for the Transformation of Jupiter - Project Lucifer

J Edward Carper

The Philosopher's Stone for the Transformation of Jupiter - Project Lucifer J Edward Carper
Jupiter impacted in 1994, again in 2009, twice more in 2010? And now another in September of 2012!?
(Another impact just recorded March 2016...!)

In the early '90's we were told significant collisions of this sort were extremely rare, on the order of once in thousands of years; now, five impacts in 18 years (4 in the last 3 years) seems extraordinary. What is really going on? The facts point to a completely different story from what we've been told...

Why the "antipodal flashes", why the "thermal convection event", why the "abundant silica" above the scar of 2009?

"The Philosopher's Stone for the Transformation of Jupiter..." takes a close look at all of the evidence and proposes something incredible, yet scientifically plausible; a risky, bold, and stealthy solar system experiment that may change everything...

First-ever analysis of recent Jupiter flashes in L3 coordinates uncovers a electric revelation!

21,000 words, multiple color diagrams.

4th Edition, released 4/8/2013 (previous edition released 12/7/2011)
