Security 2.0: Dealing with Global Wicked Problems (Peace and Security in the 21st Century) Charles Hauss

Today, international security issues are slowly being reconsidered through the lens of human security, which refers to a combination of political, economic, social, nutritional, environmental, physical health, and personal safety issues. When first mentioned in 1994, the concept of human security represented a significant first step in understanding that security dilemmas could no longer be seen as purely geopolitical phenomena that revolve around the nation-state.

This book explains the progress made toward human security since then and the steps that remain to be taken to achieve it fully. It begins by addressing how the nation-state is both the source and the solution of security problems in the world before demonstrating how the meaning of security itself is being reconsidered and traditional approaches are being challenged. Building on the concept of human security, the book looks at how we are slowly moving toward large-scale political and social change. It argues that it is time for a “security 2.0” approach, different from the traditional models of national security.

Thus *Security 2.0* addresses new challenges and their political responses, pointing toward alternatives to what is referred to as “permanent war.” It highlights such themes as cooperation, the multi-dimensionality of security issues, and the continuing pressures towards democratization, global markets, and multilevel governance and how these contribute today to make a safer world. Further, it shows how environmental threats, global corporations, identity issues, and international regimes such as the EU, are also fostering a fundamental rethinking of the concept of security. Including a variety of perspectives, and written in a jargon-free, accessible manner, the work will provide students with new insights on conflict processes and international security.

Martha Albarado:

Reading a book tends to be new life style with this era globalization. With studying you can get a lot of information that will give you benefit in your life. Together with book everyone in this world may share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or maybe their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their ability in writing, they also doing some investigation before they write to the book. One of them is this Security 2.0: Dealing with Global Wicked Problems (Peace and Security in the 21st Century).

Edward Avelar:

Sandra Wright:

As a university student exactly feel bored to be able to reading. If their teacher questioned them to go to the library or even make summary for some reserve, they are complained. Just little students that has reading's soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that examining is not important, boring and also can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Security 2.0: Dealing with Global Wicked Problems (Peace and Security in the 21st Century) can make you sense more interested to read.
